

FlexIn Heat

Induction Heating Blankets

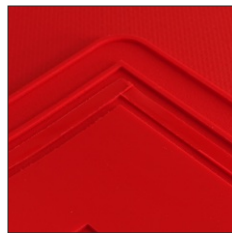

www.msquare-tec.com | info@msquare-tec.com

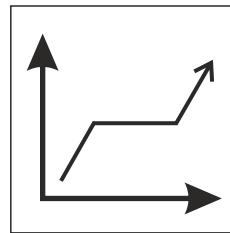

Great flexibility, integrated functionality, contactless heating and an easy handling are features of our induction blankets. With silicone or textile you will find a fitting blanket for your application. Do you need vacuum or a special size? We have the right product for you!

Silicone blanket

Integrated vacuum channel

Integrated temperature sensors

Textile blanket

Silicone induction blanket

item number size [mm]

S-I-3030	300 x 300
S-I-4040	400 x 400
S-I-5050	500 x 500
S-I-10050	1000 x 500
S-I-100100	1000 x 1000

Silicone vacuum induction blanket

item number size [mm]

SV-I-3030	300 x 300
SV-I-4040	400 x 400
SV-I-5050	500 x 500
SV-I-10050	1000 x 500
SV-I-100100	1000 x 1000

Textile induction blanket

item number size [mm]

T-I-3030	300 x 300
T-I-4040	400 x 400
T-I-5050	500 x 500
T-I-10050	1000 x 500
T-I-100100	1000 x 1000

- Performance**
- Variable power output (up to 3kW per m²)
 - Temperatures up to 400°C
 - High heating rates
 - Homogeneous temperature distribution
 - Integrated temperature sensors
 - Contactless heating

Due to our agile production process we are able to deliver customized heating blankets (type, size, geometry, functionality)
