

Resistance Heating

Resistance Heating Blankets

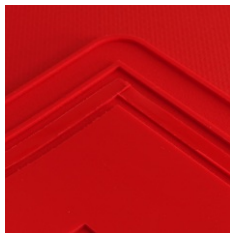

www.msquare-tec.com | info@msquare-tec.com

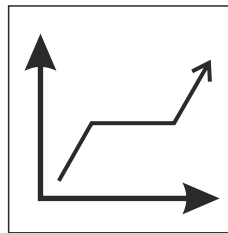

Great flexibility and function integration and an easy handling are features of our resistance heating blankets. With our silicone or textile parts you will find a fitting solution. You need vacuum or a special size? We have the right product for you!

Silicone blanket

Integrated vacuum channel

Integrated temperature control

Textile blanket

Heat conductive silicone

Silicone heating blanket

item number size [mm]

S-R-3030	300 x 300
S-R-4040	400 x 400
S-R-5050	500 x 500
S-R-10050	1000 x 500
S-R-100100	1000 x 1000

Silicone vacuum heating blanket

item number size [mm]

SV-R-3030	300 x 300
SV-R-4040	400 x 400
SV-R-5050	500 x 500
SV-R-10050	1000 x 500
SV-R-100100	1000 x 1000

Textile heating blanket

item number size [mm]

T-R-3030	300 x 300
T-R-4040	400 x 400
T-R-5050	500 x 500
T-R-10050	1000 x 500
T-R-100100	1000 x 1000

- Performance**
- Variable power output (up to 3kW per m²)
 - Temperatures up to 200°C
 - High heating rates
 - Homogeneous temperature distribution
 - Integrated temperature sensors

Due to our agile production process we are able to deliver customized heating blankets (type, size, geometry, functionality)
